

Sky Lantern Event Proposal

To whom it may concern:

We, Tabitha Brady and Gabriel Pena, have both grown up living here in Jenison for most of our lives. We have learned to love it, and call it home. Although, year after year, we don't see a single event to bring the community together. Then, for the first time, some people decided to help change that, and planned the Slip-n-slide event! Well, we want to continue having great events in our small-town, we call home.

We would like to propose an event that will once again bring the community together by celebrating the end of a great summer. With this celebration event, we think it would be fun and refreshing for everyone to light off sky lanterns in to our skies above Charlie's Dump. We would like to host this sky lantern event in the evening of August 21st. Having this happen in late August gives us all a last chance to be with friends and family before they head in their separate directions for college, school, careers and the next chapter in their lives.

During this sky lantern event, everyone who chooses to join in, will have the opportunity to purchase a sky lantern light them off with friends and family, consecutively sending them into the sky as a farewell to the summer of 2011. Aside from bringing the Georgetown community closer together, it will also be a fun and beautiful event the whole family can enjoy! Not only is this something that Jenison could soon be known for, but many may already recognize it from one of Disney's recent films, *Tangled*.

All in all, we think this would be revitalizing for the city of Jenison and could maybe encourage more great things to come our way.

Sincerely yours,

Tabitha Brady & Gabriel Pena
